

SH SKILL HUB

Features

DATA ENTRY

Create your own profile with a listing of skills proficiencies and projects for co-workers to view.

AUTOMATIC PROFILE GENERATION

Automatically generate data to a new or existing profile from project tracking software like JIRA and Bitbucket

DYNAMIC SEARCH

Quickly search for co-workers skill proficiencies and projects.

Technology Stack

REACT is a JavaScript library for building user interfaces.

NODE.js is an open-source, cross-platform JavaScript run-time environment.

PostgreSQL is an open-source relational database management system.

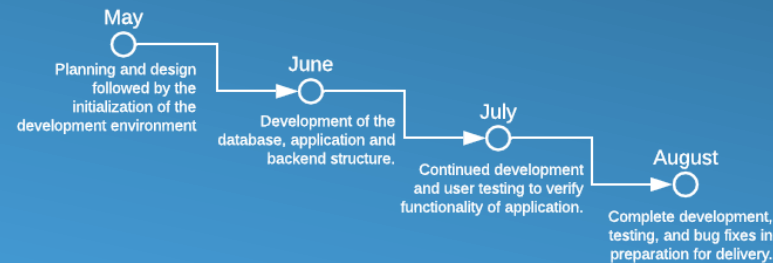

Google Cloud Platform is a cloud computing service platform created by Google.

Our Vision

SKILLHUB is an application that enables employees to quickly and efficiently figure out who knows what and who's working on what. Leveraging smart tooling integrations, SKILLHUB can determine what skills and expertise each employee has, as well as which projects they are most actively working on.

Timeline

The Team

Joshua Gorman
Computer Science
Carleton University

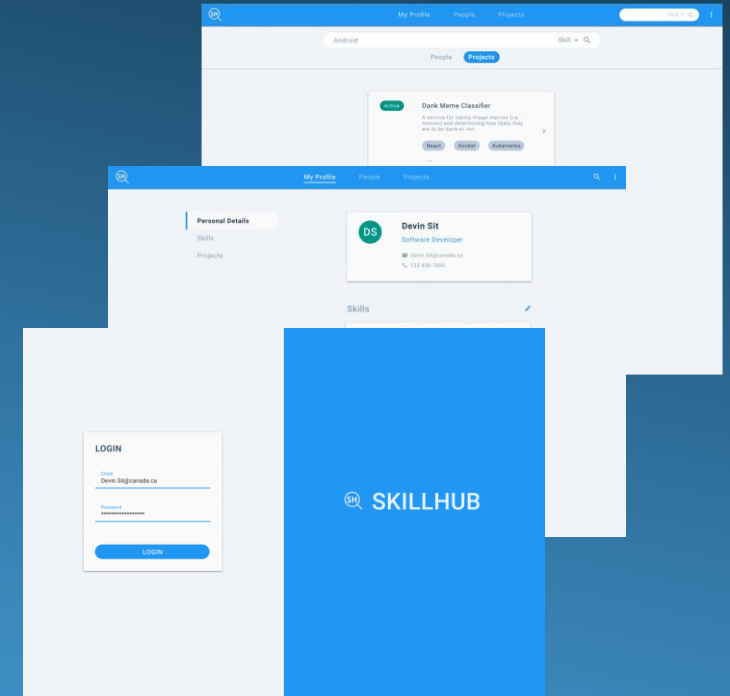

Bhalachandra Malghan
Computer Engineering
University of Ottawa

Devin Sit
Software Engineering
University of Ottawa
